

A detailed cross-sectional diagram of a multi-wavelength optical device. The main body consists of a substrate 6 containing a cavity 61 and a lens 7. Light rays from four sources labeled  $\lambda_1$ ,  $\lambda_2$ ,  $\lambda_3$ , and  $\lambda_4$  enter through a tilted plate 1. The light passes through a series of components labeled 3, 5, and 4-1, 4-2, 4-3, 4-4. The output surface of the plate is labeled 101 and 102.
